p . 6

- (Original) The method of Claim 6 further comprising: 13. billing the client taxpayer subscriber.
- (Currently Amended) A system for preparing a tax return comprising: 14.

means for subscribing to authorizing a financial recording service provider to receive tax data resulting from transactions between a client taxpayer and one or more specified financial institutions, wherein each of said transactions occurs during a subsequent time period beginning after said authorization:

means for transmitting tax data, resulting from transactions between said taxpayer and said financial institutions, directly from said given institution to said financial recording service provider:

means for storing all of said transmitted tax data under the control of said financial recording service provider:

means for validating said tax data; and

means for sending all of said validated tax data from said financial recording service provider to a tax return preparer, for use in preparing a tax return for said taxpayer, after the end of said time period.

means for receiving tax data from the financial recording service provider; means for validating the tax data received from the financial recerding service provider; and.

means for submitting the validated tax data.

- (Original) The system of Claim 14 wherein the validated tax data is submitted to a tax 15. authority.
- (Original) The system of Claim 14 wherein the validated tax data is submitted to the 16. financial recording service provider.
- (Original) The system of Claim 14 wherein the validated tax data is submitted to a tax 17. return preparation service.

Page 4 of 18 Stern et al. - 09/758,616

- (Original) The system of claim 14 further comprising: 18. updating the tax data with additional financial data.
- (Currently Amended) A system for preparing a tax return comprising: 19. means for receiving tax data associated with a client taxpayer from [[an]] a financial institution during a specified fiscal year, and,

means for seeding a tax return with inserting the tax data received from the institution into a tax return during the specified fiscal year; and

submitting the tax return to a tax authority after the end of the specified fiscal year.

- (Original) The system of Claim 19 wherein the client taxpayer may validate the tax data. 20.
- (Original) The system of Claim 19 further comprising: 21. means for updating the tax data with additional tax data.
- (Original) The system of claim 21 wherein validating the tax data is performed by the 22. client taxpayer.
- (Original) The system of Claim 21 wherein validating the tax data is performed by the 23. financial recording service provider.
- (Original) The system of Claim 21 wherein validating the tax data is performed by a tax 24. return preparation service.
- (Original) The system of Claim 21 wherein validating the tax data is performed by the 25. institution.

- 35. (Original) The computer program product of Claim 34 wherein the validated tax data is submitted to a tax authority.
- 36. (Original) The computer program product of Claim 34 wherein the validated tax data is submitted to the financial recording service provider.
- 37. (Original) The computer program product of Claim 34 wherein the validated tax data is submitted to a tax return preparation service.
- 38. (Original) The computer program product of Claim 34 further comprising: fourth instructions for updating the tax data with additional financial data.
- 39. (Currently Amended) A computer program product for preparing a tax return comprising the steps of:

first instructions for receiving tax data associated with a client taxpayer from [[an]] a financial institution during a specified fiscal year;

second instructions for seeding a tax return with inserting tax data received from the institution into a tax return during the specified fiscal year; and,

third instructions for validating the tax data submitting the tax return to a tax authority after the end of the fiscal year.

- 40. (Currently Amended) The computer program product of Claim 39 further comprising:

  fourth instructions for submitting the validated validating the tax return before submitting

  it to a tax authority.
- 41. (Original) The computer program product of Claim 39 wherein the client taxpayer may validate the tax data in the tax return.

- (Original) The computer program product of Claim 39 further comprising: 42. fourth instructions for updating the client taxpayer's tax data with additional tax data; and. fifth instructions for validating the additional tax data.
- (Original) The computer program product of Claim 42 wherein validating the tax data is 43. performed by the client taxpayer.
- (Original) The computer program product of Claim 42 wherein validating the tax data is 44. performed by the financial recording service provider.
- (Original) The computer program product of Claim 42 wherein validating the tax data is 45. performed by a tax return preparation service.
- (Original) The computer program product of Claim 42 wherein validating the tax data is 46. performed by the institution.
- (Original) The computer program product of Claim 42 further comprising: 47. sixth instructions for billing the client taxpayer subscriber.
